Highlights

Micro X-Clean filter
The Micro X-Clean is multi-filtration system. It consists of a hi-tech hollow-fibre membrane, which contains more than 300 billion micro-pores for the efficient removal of 99.99% of all bacteria, an ion exchanger to remove harmful soluble lead, a fine granular activated carbon to remove the harmful chlorination by-products, harmful industrial pollutants such as volatile organic chemicals, and agricultural pollutants such as the pesticide CAT. It also removes unpleasant chlorine, bad taste and odors. The filter preserves the good minerals in drinking water that are vital for human health.

Quick Twist filter change
The advanced Quick Twist filter change mechanism makes changing the filter quick, easy and secure, bringing sense and simplicity to your water purifier.
